Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-5, and 8-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Chin et al. (2004/0203565).

Regarding claims 1, 5, 8, Chin discloses an emergency call back method, comprising: receiving from a PSAP call center at least one tag identifier in response to the emergency call from the at least one wireless unit (see abstract, fig.1 and its description) and transmitting to the PSAP call center a wireless call back number corresponding with the at least one tag identifier in response to receiving the at least one tag identifier (see abstract, fig.2 and its description).

Regarding claims 2-4, 9 Chin further discloses at least one tag identifier corresponds with at least one of an emergency service routing key, a local public safety number, a paging identity and a mobile equipment identification number (see figs.1-6 paragraph [0012] and its description).

5. Claims 1-27 are rejected under 35 U.S.C. 102(e) as being anticipated by D'Evelyn et al. (2005/0053209).

Regarding claims 1, 5, 8, 14, 18, 22, D'Evelyn discloses a method and system for availing participants in a special number call event and others of information contained in a plurality of data stores, the method comprising: transmitting at least one tag identifier to the emergency service message entity (see fig.3, element 124, paragraph [0045] and its description); entering the at least one tag identifier into the emergency service message entity (see fig.3, elements, 124-126, paragraph [0045] and its description); and requesting the emergency callback corresponding with the entered at least one received tag identifier (see figs.3-4, paragraphs [0045]-[0094] and its description).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
